# TINTED COLOR LENS

## Tinted Lens Sun Top

This collection redefines the concept of "basic" with a vibrant twist. We've taken the classic sun topper and infused it with a spectrum of eye-catching tinted lenses, creating a line that's both stylish and essential.

These sun toppers are designed to complement any look, from casual to chic. They're the perfect finishing touch for any outfit, adding a pop of personality without overpowering your style.

These toppers aren't just about looks. They provide essential protection from the sun's harmful rays, keeping your eyes safe and comfortable all day long.

# SHIMMERS

## Spicing up the Basics

Introducing Shimmer, the understated sister to our Sparkle collection. These top frames offer a subtle touch of radiance, perfect for everyday elegance.

Sparkle just got a little sister! Meet Shimmer, our new collection of top frames with a softer touch. These frames add a hint of shimmer that's perfect for any occasion, from work to weekend. Our introductory collection includes 8 staple colors from our broad spectrum!

# GRADIENT CRYSTALS

## Crystal Clear

Our first ever foray into a new tops construction category will be our introductory Gradient Crystal Collection.

With this collection we are bringing in a new level of interactivity like never before. We are giving our customers another layer of creativity to play with. The gradient crystals are a new tool to customize their existing solids, sparkles, premiums, and print tops to instantly create another look! Stacking tops is going to be a huge new venture for self expression.

We don't want to forget, while this is going to completely change the look of top frames, it will also be a beautiful and subtle way to spice up base frames for a more sophisticated look.
